PRESS COMMUNIQUÉ.

Dated Fort St. George, November 21, 1934.

No. 112.—

In a memorandum presented to the Hon'ble the Revenue Member on 26th October 1934, by a deputation of the Manamagui, Tulu Landholders' Association, it is stated that the power reserved under paragraph 9 of the notification for the settlement of the Tanjore district published in the Tanjore District Gazette Extraordinary, dated 25th January 1923, relates only to the revision of the boundary between the second and third class sources in four taluks covering an area of 11,339-36 acres, and not to a revision of the boundaries generally in respect of all lands in the old Canvey delta in the Tanjore district. This statement does not represent the correct meaning of paragraph 9 of the resettlement notification. The reclassification ordered in G.O. No. 1236, Revenue, dated 14th July 1933, was made, so far as the old delta is concerned, under sub-paragraph (1) of paragraph 9 which does not restrict the power to any specified tract. The memorandum ignores the following passage occurring in Mr. Jackson's Scheme Report printed in G.O. No. 1337, Revenue, dated 15th August 1922:—

"Here, however, as in the uplands the most weighty reason for leaving well alone is the prospect of the introduction of the Canvey-Mettur Project during the currency of the approaching resettlement."

According to the orders contained in G.O. No. 3347, Revenue, dated 12th October 1926, and No. 2226, Revenue, dated 16th December 1930, the present second-class sources will be raised to first class on the introduction of this project. It thus appears to me that it would be a work of supererogation to make any changes now in the line of division between first and second class sources.

With the introduction of the project third class sources will be raised to the second class, and, therefore, the boundary as now existing between second and third class sources will then represent a boundary between first and second class irrigation.

This boundary, therefore, unlike the present first and second class boundary, which will disappear, will remain of permanent importance."

This passage makes it clear that a general reclassification of sources was contemplated in the old delta as in the uplands and that such reclassification was held over pending the construction of the Canvey-Mettur Project. The statements made in the memorandum that the construction of the Mettur dam can affect only the lands in the uplands, and that the revision of the classification of the sources in the old delta was only an after-thought recently discovered, are entirely without foundation. The argument that so far as the Canvey-Mettur Project is concerned, paragraph 9 (b) of the resettlement notification is not intended to apply, but only paragraph 9 (a) is intended. The memorandum states that the Government stand in its financial forecast of the Mettur Project in 1928, did not anticipate any revenues from the existing delta by a revision of the classification of irrigation sources. This is again another error statement. The revenue estimate of the Canvey-Mettur Project prepared in 1910 contemplated the raising of the second and third class sources in the old delta to first and second class, respectively, and a sum of Rs. 5,56,204 on an extent of 681,370 acres was included in the financial forecast on this account. When the Legislative Council in 1924 approved the proposal to construct the Canvey-Mettur Project, it had before it a financial forecast which included a sum of Rs. 5,20,550 arrived at as follows:—

Raising of the delta second-class sources to first class—	Rs.
483,000 acres at Rs. 1 per acre	4,83,000
Raising of delta third-class sources to second class—151,370	
acres at 8 annas per acre	12,610
Total	5,20,550

Report of the Select Committee to be presented to the Legislative Council of the Governor of Madras.

Under S.O. 41 of the Standing Orders of the Madras Legislative Council, the following Report of the Select Committee on the Bill further to amend the Madras Elementary Education Act, 1920, for certain purposes, (Bill No. 17 of 1934), together with the Bill as amended by the Select Committee is published :—

BILL No. 17 OF 1934.

A Bill further to amend the Madras Elementary Education Act, 1920, for certain purposes.

To
THE HONOURABLE THE LEGISLATIVE COUNCIL
OF THE GOVERNOR OF MADRAS.

The Select Committee appointed to consider a Bill
further to amend the Madras Elementary Education

Act, 1920, for certain purposes, viz., Bill No. 17 of 1934, has the honour to make the following report.

2. The Bill was published in the *Fort St. George Gazette*—

in English on the 2nd October 1934,
in Tamil on the 13th November 1934,
in Telugu on the 13th November 1934, and
in Kanarees on the 13th November 1934.

3. The Committee met on the 14th November 1934 to consider the provisions of the Bill and on the 18th November 1934, to pass its report. The more important changes introduced by the Committee are mentioned below.

4. *Clause 3*.—The first proviso to proposed section 8 enacts that, if a member of a district educational council ceases to be a member of the local authority which elected him, he ceases to be a member of the council. The Committee considers that this proviso should not be applicable to cases where, by re-election he becomes a member of the local body immediately on the expiry of his previous term of office and there has thereby been no break in his membership of the local body. The Committee thinks that, in such a case, he should continue as a member of the educational council for the unexpired portion of his term of office as member of the district educational council.

The second proviso to proposed section 8 enacts that an elected or an appointed member of a district educational council shall cease to hold office as such member on his becoming an ex-officio member of the council. The Committee considers that there is no reason why, if he also happens to be a president or vice-president of the council, he should lose his office as such president or vice-president. It has accordingly been made clear that, if an elected or appointed member who is a president or vice-president of the council becomes an ex-officio member, he shall not, on that account, lose his office as president or vice-president, and that he will continue as such president or vice-president for the period for which he would have continued as such, had he not become an ex-officio member. The Committee has also added a new provision making it clear that existing members of

district educational councils shall continue to hold office till the expiry of the full period for which they were elected or appointed.

5. *Clause 4.*—In the proposed sub-section (2) of section 10 introduced by this clause, provision is sought to be made for the carrying on of the functions of the president of a district educational council in the case of a vacancy in his office or of his continuous absence from jurisdiction for more than fifteen days or of his incapacity. The Committee considers that the vice-president should, before he takes over the functions of the president under this clause, give at least three days' notice by registered post to the Collector of the district and to the president, if one exists, of his intention to exercise the functions of the president. It also considers that the period of continuous absence from jurisdiction which would justify a vice-president to exercise the powers of a president should not be less than thirty days. The Committee has made the necessary amendments in clause (b) of proposed sub-section (2) to carry out these intentions. The Committee has made necessary amendments to proposed sub-section (2) so as to make it cover cases of the absence or incapacity of the president as well as cases of vacancy in the president's office.

6. *Clause 5.*—Sub-clause (ii) of this clause empowers the Local Government to give necessary directions to a district educational council in regard to the recognition, or withdrawal of recognition, of elementary schools as well as to revise the proceedings of a district educational council in regard to such recognition or withdrawal of recognition. The Committee considers that the powers should have reference not only to the recognition or withdrawal of recognition of a school as a whole, but also to recognition or withdrawal of recognition of a school up to particular standards and has added necessary words in clause (a) of proposed sub-section (4) of section 41 to carry out this intention.

7. *Clause 7.*—Some of the members of the Committee do not agree to this clause, as they are of

opinion that the modified form of compulsion provided for by it might have the effect of scaring away parents from sending their boys to any school at all and that provision for compulsion should be directed to the bringing of all children of school-going age into schools as well as to retaining them there for the necessary period. A majority of the Committee, however, is agreeable to the principle of this clause. In view of the fact that section 44 of the Act, as it now stands, contains three clauses referring respectively to 'children,' 'boys' and 'girls,' it has introduced in sub-clause (ii) of clause 7 the additional words, namely, "for all children of school-age who have, for such period as may be prescribed, attended an elementary school."

8. *Clause 8.*—Sub-section (2) of proposed section 45-A as introduced is capable of the interpretation that the Local Government can only either reject a scheme sent to them by a local authority under sub-section (1) or accept it with modifications and that they have no power to accept it without modification. The Committee has made it clear that the Local Government may accept such a scheme without modification.

9. *Clause 11.*—The Committee agrees to the new method of enforcing compulsion provided for by this Bill, namely, that of a penalty recoverable from the offending parent instead of his prosecution for failure to send his child to school. The Committee considers that this method of enforcement of compulsion should be applicable not only to the new category introduced by this Bill of compulsion applicable to children, boys and girls of school-going age who have already attended an elementary school, but even to cases of compulsion already provided for by section 44 of the existing Act. The Committee has accordingly deleted sections 51 and 52 of the Act which deal respectively with the appointment of Attendance Committees and with prosecutions for failure to send children to school, and has extended the provisions of the proposed new section 51 to all categories of compulsion under the Act. Under sub-section (2) of this proposed new section provision is made for an appeal

to the Revenue Divisional Officer against the order of a municipal chairman imposing a penalty and to the District Collector against an order of a district board president imposing a penalty. There is a considerable feeling in the Committee that this distinction is undesirable and that in every case an appeal against an order imposing penalty should lie only to the District Collector. The Government have agreed to have this question examined.

In the opinion of Mr. T. A. Ramalingam Chettiyar, the change now made in the nature of the sanction, viz., penalty instead of a prosecution for enforcing compulsion, obviates any necessity which may exist for introducing the modified form of compulsion provided for by clause 7 for children, boys or girls who have already attended an elementary school.

10. *Clause 12.*—The Committee accepts this provision and recommends that in framing rules under this clause, the Local Government should make it clear that a surcharge can be made only in cases of neglect or misconduct and not of *bona fide* mistakes.

11. The Committee has made various other alterations in the Bill which it is unnecessary to refer to here. They are all incorporated in the Bill as annexed. The Committee considers that the Bill should be re-published.

12. In conclusion, the Committee desires to add its emphatic opinion that, for the successful working of this measure, the financial provision made by the Government for elementary education in this province should be substantially increased.

DANIEL THOMAS,
Chairman.

[Note.—The changes made by the Select Committee are shown in *italicised type* and the portions omitted are shown by *dots*.]

STATEMENT OF OBJECTS AND REASONS.

Licences under sections 4 and 9 of the Indian Christian Marriage Act, 1872, were granted to Mr. Aarvatham of the Self-Supporting Seventh Day Adventist Church for the Tamil country in the district of Tinnevely on the 25th October 1928. In May 1933, the District Magistrate, Tinnevely, recommended the cancellation of the licences granted to Mr. Aarvatham on the ground that he solemnized a bigamous marriage. The Government accordingly issued orders cancelling the licences on the 7th August 1933 and the notification regarding such cancellation was published in the Fort St. George Gazette, dated the 15th August 1933. The order cancelling the licences was not, however, communicated to Mr. Aarvatham and being unaware of the cancellation of his licences, Mr. Aarvatham solemnized several marriages between the 7th August 1933 and the 15th November 1933. As the marriages so solemnized are liable to be considered invalid legislation for validating such marriages as well as the certificates granted and other acts done by Mr. Aarvatham between 7th August 1933 and the 15th November 1933, is necessary.
